Software's Developed by me

• MediaServer

<https://github.com/dewebdes/MediaServer>

Pure ICE MediaServer with ability to connect with rtmp and flash

• RealState

<https://github.com/dewebdes/RealState>

Native HTML, NodeJS, WordPress, MySQL, PHP application test for 700.000 records of states files with Advanced Security test and traffic test for 70.000 daily visit with 10.000 concurrent connection

with 3-5 second load balance

• CSharp-Browser

<https://github.com/dewebdes/Shap-Browser>

Pure C# Definition for Chromium Scrap WEB Professional

• Flight-Ticket

<https://github.com/dewebdes/Flight-Booking>

Pure Laravel + VUE flight booking system with external api call for transform services

• Football-Real-time-Game

<https://github.com/dewebdes/FOTBAL>

Multiuser Online Football Game for Web, Android, IOS

• ORM

<https://github.com/dewebdes/MaximORM>

Pure C#, MVC, EF6, MySQL ORM system that handle over 70 real small business with 6 GIG database

• BOT

<https://github.com/dewebdes/TFM.BOT>

Scrape WEB Silently or Intrude Any Online System With Unknown Face

. Drones

<https://github.com/dewebdes/Service-Drones>

A Native System of Android, NodeJS with TCP, UDP, RTMP, GPS Libraries and tested on a military lab

. Booking

<https://github.com/dewebdes/IPOZAL>

A Booking and Reservation ORM for a Forest of small business

. Ranking

<https://github.com/dewebdes/security/blob/master/alexahack.zip>

Alexa Rank Hacking Extension
